

LEGALPERIGEE

DATA SOURCES & INTELLIGENCE BRIEFING

Prepared: June 03, 2026 · Ethical · Analytical · Evidence-Based

Complete inventory of court records, regulatory data, legislative sources, and real-time monitoring tools available for AI fraud investigation.

Executive Summary

LegalPerigee aggregates AI fraud and civil rights case intelligence from federal courts, state courts, regulatory agencies, legislative bodies, and legal news. This document details every active source, the specific records available per query, and a roadmap of additional sources ready for integration.

The system operates in two modes: **live investigation** — real-time API queries during a search — and **library aggregation** — background sync building a searchable local database. Together they cover ~20 active sources with ~27 more available to add.

Part 1 — Currently Active Sources

1.1 Live Investigation Sources

Queried in real time every time you run an investigation in the ■ Investigate tab:

Source	Records Searched	Coverage	Access
CourtListener	Opinions, PACER dockets, parties, filing dates, docket numbers, citations	All 13 federal circuits + district courts	Free REST API
Web Search (Anthropic)	FTC / SEC / CFPB press releases, news, legal blogs, enforcement summaries	Entire public web, real time	Built-in tool
Describe	Authority-ranked U.S. case law, statutes, regulations, citation analysis	Federal + state case law	MCP (optional)

1.2 Case Library — Synced Sources

Pulled into the local database via the Sync Manager and fully searchable:

Source	Records Available	Volume	Tier
CourtListener	Opinions, dockets, RECAP filings, parties, judges, citation counts, document links	Millions of cases	1
Harvard Caselaw Access Project	Full case metadata, decision dates, jurisdiction, citations — all 50 states + federal	6.7 million cases	1
Oyez / SCOTUS	Case facts, holdings, voting records, oral argument audio links	All terms since 1955	2
SCOTUSblog	Case dockets, analysis, amicus briefs, argument previews	Current + recent terms	2
FTC	Enforcement actions, consent orders, penalty amounts, complaints	Ongoing	1
SEC	Litigation releases, enforcement orders, AI-related securities fraud	Ongoing	1
CFPB	Consumer finance enforcement, fair lending, algorithmic credit scoring	Ongoing	1
EEOC	Employment discrimination enforcement, AI hiring bias, settlements	Ongoing	1
HUD	Housing discrimination enforcement, algorithmic redlining, fair housing	Ongoing	1
DOJ Civil Rights	Pattern-or-practice investigations, consent decrees, AI discrimination	Ongoing	1
FCC	Telecom enforcement — AI robocalls, deepfake voice fraud	Ongoing	1
OCC	Banking AI enforcement, algorithmic lending, fintech oversight	Ongoing	1

Source	Records Available	Volume	Tier
Federal Register	Proposed + final AI rules, agency notices, docket numbers	All agencies, ongoing	1
Congress.gov	AI-related bills, sponsor, committee, latest action, vote history	117th–119th Congress	1
All 50 State AGs + DC	Enforcement press releases — AI keyword filtered, all 51 jurisdictions	Ongoing	2
Reuters Legal	Legal news, AI fraud reporting, tech law analysis	Ongoing	3
Above the Law	Legal industry news, AI law developments	Ongoing	3
Justia	Free federal opinions, circuit court decisions	All federal courts	2
SSRN	Academic legal papers on AI law, discrimination, consumer protection	Ongoing publications	3
Google Scholar	Free case law — federal + state opinions	All U.S. courts	3

* Tier 1 = highest priority for AI fraud. Tier 2 = strong secondary. Tier 3 = supplementary.

Part 2 — Record Types Available Per Query

2.1 Court Records

Record Type	Fields Available	Source
Case Docket	Case name, docket number, court, judge, date filed, nature of suit, cause of action, parties	CourtListener / PACER
Published Opinion	Full text, citation, holding, date decided, authoring judge, majority/dissent, cited cases	CourtListener / Harvard CAP
PACER Filing	Complaints, motions, orders, judgments — individual document links via RECAP	CourtListener RECAP
Case Parties	Plaintiff names, defendant names, attorney names, firm names	CourtListener
Citation Network	Cases that cite this case, cases cited by this case, citation count over time	CourtListener / Descrybe
SCOTUS Record	Oral argument audio, full voting record, amicus briefs, case summary	Oyez API

2.2 Regulatory & Enforcement Records

Record Type	Fields Available	Source
FTC Enforcement	Respondent, charges, penalty amount, consent order terms, effective date	FTC.gov
SEC Litigation	Defendant, charges, civil/criminal, penalty, disgorgement, injunction	SEC.gov
CFPB Action	Company, violation type, consumer harm, restitution amount, compliance order	CFPB.gov
EEOC Charge	Employer, protected class, charge type, settlement, consent decree terms	EEOC.gov
HUD Enforcement	Respondent, fair housing violation, conciliation agreement, penalty	HUD.gov
DOJ Civil Rights	Target entity, pattern/practice finding, consent decree, monitoring period	Justice.gov
Federal Register Rule	Agency, rule title, docket ID, affected parties, comment period, effective date	FederalRegister.gov

2.3 Legislative Records

Record Type	Fields Available	Source
Federal Bill	Bill number, title, sponsor, co-sponsors, committee, latest action, vote counts, full text link	Congress.gov API

Record Type	Fields Available	Source
State Bill	Bill ID, state, sponsor, status, committee hearings, vote history	OpenStates (available)
Committee Hearing	Date, committee, witnesses, topic, transcript link	Congress.gov
Floor Vote	Vote date, outcome, member votes by party, roll call number	Congress.gov / GovTrack

Part 3 — Additional Sources Available for Integration

3.1 Bills & Legislation Tracking

Source	Records Available	Value for AI Fraud Cases	Access
GovTrack	Bill tracking, voting records, committee assignments, passage probability	Track AI bills through Congress	Free JSON API
ProPublica Congress	Full bill text, co-sponsors, vote history, committee hearings, lobbying data	Follow AI lobbying and legislation	Free API key
OpenStates	All 50 state legislatures — bills, votes, legislators, committees	State AI legislation (biometric, deepfake, hiring laws)	Free API
LegiScan	Real-time bill monitoring, all 50 states + Congress, keyword alerts	Instant notification when AI fraud bills advance	Free tier + paid

3.2 Court Filing Records (PACER Level)

Source	Records Available	Note
PACER Direct	Every federal filing: complaints, answers, motions, orders, judgments, transcripts — real-time	PACER account required (\$0.10/page)
CMECF Alerts	Instant email when any docket you follow receives a new filing	PACER account required
NY NYSCEF	New York state court e-filings — civil, commercial, matrimonial	Free public access
CA eCourt	California appellate + superior court filings and opinions	Free public access
TX eFileTexas	Texas state court e-filings across all trial and appellate courts	Free public access

3.3 Financial & Regulatory Dockets

Source	Records Available	Value	Access
Regulations.gov	Full regulatory dockets with all public comments, agency responses, final rule documents	See who is commenting on AI rules and why	Free API
SEC EDGAR	10-K, 10-Q, 8-K filings — fraud disclosures, risk factors, material AI events	AI fraud appears here before court cases are filed	Free API
FinCEN	Financial crime reports, suspicious activity reports (limited public)	AI-enabled financial fraud	Partial
OFAC Sanctions	Sanctioned entities list — confirm if AI fraud actor is sanctioned	Background checks on defendants	Free

3.4 Real-Time Monitoring

Source	What It Monitors	Status
CourtListener Alerts	New cases filed matching your keywords — MCP already connected	Ready to build — MCP connected
PACER Email Alerts	New filings on specific dockets the moment they are filed	Needs PACER account
GovTrack Alerts	Bills with specific keywords advance in Congress	Free — needs integration
Federal Register	New AI rules published today — already integrated	Available — add cron schedule
LegiScan Push	Real-time push when any state AI bill receives a hearing or vote	Needs LegiScan API key

3.5 International Sources

Source	Coverage	Relevance
EUR-Lex (EU)	EU AI Act enforcement, GDPR cases, Digital Services Act actions	Multinational AI fraud actors operating in EU
UK ICO	UK AI and data protection enforcement, fines, investigation decisions	UK deepfake and AI fraud cases
Canada OPC	Canadian privacy and AI enforcement, PIPEDA complaints and orders	Cross-border AI fraud cases
OECD AI Policy	Country-by-country AI policy tracker, regulatory frameworks	Comparative law and jurisdiction analysis

Part 4 — Priority Integration Roadmap

The following sources are ranked by investigative value for AI fraud, civil rights cases, and consumer protection:

■ IMMEDIATE — Highest Impact

CourtListener Alert Subscriptions

The MCP server is already connected. Wire it to auto-subscribe to new AI fraud case filings. Investigators are notified the moment a new matching case is filed anywhere in the federal court system.

SEC EDGAR API

AI company fraud disclosures appear in 8-K filings before court cases are filed. This is the earliest warning signal available and integrates via a free REST API.

OpenStates — All 50 State Legislatures

Covers biometric privacy laws (Illinois BIPA), deepfake laws, AI hiring laws. Every state AI law that could become an enforcement case starts here.

■ SHORT TERM — Strong Value

Regulations.gov Full Dockets

Public comments on AI rules often name specific companies and document harms before formal enforcement. Rich investigative leads, free API.

PACER Direct Integration

Full complaint text, not just metadata. Access actual allegations, exhibits, and evidence in AI fraud cases. Requires PACER account (\$0.10/page).

GovTrack + ProPublica Congress API

Complete legislative picture — who is sponsoring AI bills, who is lobbying against them. Follow the money from bill introduction to passage.

LegiScan Real-Time Alerts

Know within hours when any state AI fraud bill receives a committee hearing or floor vote across all 50 states.

■ LONGER TERM — Comprehensive Coverage

EU AI Act Enforcement (EUR-Lex)

Multinational AI fraud cases often face EU enforcement in parallel. Defendants tracked here may also face substantial EU penalties.

FinCEN / OFAC Financial Records

Financial crime and sanctions data — confirm whether AI fraud actors have prior financial crime history or are already sanctioned.

NY NYSCEF / CA eCourt / TX eFileTexas

Most consumer class actions are filed in state courts, not federal. State court e-filing access closes the largest remaining gap in coverage.

Summary — Complete Source Inventory

Category	Currently Active	Available to Add	Total Potential
Federal Courts	3 active	3 available	6+
Federal Agencies	8 active	4 available	12+
State Courts & AGs	51 AGs	50 eCourts	100+
Legislative	Congress	GovTrack, OpenStates, LegiScan, ProPublica	6+
Legal News & Research	5 active	4 available	9+
International	0	4 available	4+
Financial / Sanctions	0	3 available	3+
Real-Time Monitoring	Partial	PACER, GovTrack, LegiScan, FR	5+
	~20 active sources	~27 additional available	~47+
